

% Youth also receiving Medicaid Therapy Services

	Total	47%
Gender	Male	46%
	Female	48%
Age	0-6	28%
	7-12	48%
	13-18	49%

DRAFT REPORT:

Based on analysis of CY2007 Department of Children and Families (DCF) data and Medicaid data for persons with paid claims for psychotropic medications, including persons aged 0-20.

Because the data sets used in this analysis do not share unique person identifiers, Probabilistic Population Estimation was used to determine caseload size and overlap (with 95% confidence intervals).

Analysis performed by the Vermont Mental Health Performance Indicator Project

DCF Family Services Youth Receiving Medicaid Psychotropic Medications

		<u>% of DCF Youth</u>
Total		28.1% ± 3.3%
Female		28.3% ± 4.4%
